Central venous catheters	50	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Endovascular interventions	30	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Arteriovenous access creation	70	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Arteriovenous access revision	50	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

### Additional information:

Vascular access out-patient clinic: 1 day per week  
 Vascular access operating room: 2 days per week

The hospital has specific expertise in endovascular creation of arteriovenous fistulas using the Ellipsys device. There is an associated private clinic where additional patients are treated. Depending on the specialty license of the fellow, it is possible to assist with these interventions.

### Background knowledge / skills required:

Basic skills in vascular surgery and vascular ultrasound.
